

Dashboard “Tool” to Increase Profits and Save Money

By AlturaSolutions Communications

Dated: Jul 08, 2010

The Sustainability Dashboard Tool, designed for jansan distributors and others in the professional cleaning industry

The Sustainability Dashboard Tool, designed for jansan distributors and others in the professional cleaning industry, is an easy-to-use Web-based tool that measures indicators of sustainability and offers strategies for reducing waste and increasing profits.

The system measures, records, and calculates such crucial categories as energy, water, waste, recycling, fuel, office supplies, lamps, as well as sales and delivery indicators.

Functioning like a calculator, the Dashboard then adds up costs and units by category to help users select ways to reduce greenhouse gas emissions as they reduce operating costs.

About Sustainability Dashboard Tools, LLC

Sustainability Dashboard Tools, LLC, has created a new Web service technology designed specifically for cleaning professionals. The company’s CEO is Stephen Ashkin, President of The Ashkin Group and Executive Director of the Green Cleaning Network; its COO is Cynthia Schultz.

Sustainability Dashboard Tools' allows users to measure the natural resources their businesses use and the greenhouse gas emissions they generate. Armed with this information, businesses can make commonsense changes that reduce their impact on the environment.
