Real Productivity

Many manufacturers claim their products help improve worker productivity, but Tornado® Industries' CV 30 makes it happen.

The CV 30 has a lightweight handle and brush-assisted movement, taking the fatigue out of vacuuming. Onboard hose and tools allow users to clean upholstery and other surfaces without interruption.

Removing debris trapped inside the machine or changing the roller brush and filter is a breeze. And to help

protect user health, the CV 30 is a true-HEPA machine so virtually no impurities are released into the air.

For more information, visit www.tornadovac.com, or call toll-free: 800-VACUUMS.
