

Enviro-Solutions ES 53 Cream Cleanser

Related Images

Enviro-Solutions introduces ES 53 Cream Cleanser for removing soap scum, fat, grease, and hard-water deposits from tubs, tiles, and toilet bowls.

The company says ES 53 is cost-effective and easy to use. Apply small amounts to surfaces, gently scrub, and rinse clean. For more soiled areas, allow ES 53 to dwell on the surface for two minutes. The product rinses freely to save labor.

ES 53 also contains Envirocide, an odor eliminator. It's Green certified by EcoLogo—safe for users and the environment.
