Let's Get Technical

ES 64 is an EPA-registered, Health Canada (DIN) approved, environmentally responsible, highly effective cleaner/disinfectant with a broad kill claim—influenza A, MRSA, HIV, and many more.

In fact, it is effective at eliminating more microbes, germs and bacteria than many other disinfectants.

Hospital use approved, ES 64 is a dual-quat product, with a neutral pH, and is nonylphenol ethoxylates free.

For added protection, ES 64 is supplied in “closed” dispensing packaging, reducing the likelihood that concentrate will come into user contact and protecting the environment as well.
