More Biobased Products from Pro-Link

[Pro-Link](#) expands their biobased cleaning products, with two biobased hand cleaners qualifying for the U.S. Department of Agriculture's BioPreferred Program for federal government preferred procurement.

This allows jansan distributors to take advantage of an entirely new marketing opportunity.

The two products—Pro-Link's Prestige Antibacterial Gold Hand Soap and 2000/5000 Plus Orange Pumice Skin Cleanser—are made from renewable ingredients such as soybeans, coconuts, and corn and are readily biodegradable.

Along with all of their environmental attributes, these soaps are mild and effective, perfect for use in all facilities.

About Pro-Link

Pro-Link, which was founded in 1984, is a national full-service janitorial supply, marketing, and buying organization. Based in Canton, MA, this jansan-focused organization currently has more than 70 members and over 100 distribution points

throughout the United States. Pro-Link provides its distributor-members and customers with a nationally-recognized brand of high quality products and services that help deliver consistently cleaner facilities at lower total cost. With a sales force of industry professionals, the organization also provides national field support, troubleshooting, and training for members and end-customers. Pro-Link has developed a sophisticated program for national accounts allowing for centralized procurement, online ordering, and advanced reporting, all supported by fast delivery and service.
