Improves Performance

Sustainable Dashboard Tools, an easy-to-use yet highly advanced Web-based service, helps jansan distributors and other industry professionals become more efficient, manage more effectively, and increase profitability.

Using the Dashboard, users can measure how they use natural resources such as fuel, oil, and electricity. It also helps users satisfy reporting requirements, benchmark their sustainable performance against themselves, develop sustainable performance targets, and make improvements.

After all, if you can't measure it, you can't manage it...and if you can't manage it, you can't improve it.

For more information, visit <http://green2sustainable.com/> or e-mail cschultz@green2sustainable.com.

Stephen Ashkin is available for interviews, presentations, and commentary on Green Cleaning–related issues, sustainable buildings, industry trends, and facility management. He can be reached by calling (812) 332-7950.

About Sustainability Dashboard Tools, LLC

Sustainability Dashboard Tools, LLC, has created a new Web service technology designed specifically for cleaning professionals. The company's CEO is Stephen Ashkin, President of The Ashkin Group and Executive Director of the Green Cleaning Network; its COO is Cynthia Schultz.

Sustainability Dashboard Tools' allows users to measure the natural resources their businesses use and the greenhouse gas emissions they generate. Armed with this information, businesses can make commonsense changes that reduce their impact on the environment. Such changes save businesses money and make them more efficient and competitive while also benefiting their facilities, employees, and local community as well as the environment.
