A Sweeping Change

Floor Sweeper features Quadra brush system. Upsweep 32 Manual Sweeper comes equipped with twin brushes for edge cleaning and twin main roller brushes to pick up dirt, dust, and soil. Upsweep motion ensures all contaminants go in dustpan. Product can sweep up fine dust particulates as well as soda cans.

A Sweeping Change

Tornado introduces an entirely new approach to floor sweeping. The Upsweep 32 Manual Sweeper system has a unique Quadra Brush system to make sweeping faster and more effective.

The system includes twin brushes for edge cleaning and twin main roller brushes to pick up dirt, dust, and soil. And the upsweep motion makes sure all contaminants go in the dustpan - not back into the air as with conventional sweepers.

Sweep up material as small as the finest dust particulates or as large as a soda can; it's no problem for the Upsweep 32 Manual Sweeper.
